

Heavy load hygiene pallet with 3 skids	
Dimension	1000 x 1200 x 150 mm
Material	PE-RE / SBR/NBR
Colour	grey / black
Temperature stability	-30 °C up to +60 °C
Weight	35 kg
Capacity Loads*	Static: 7500 kg Dynamic: 2500 kg On the rack: 1250 kg

Description /Application:

Closed all around for highest stability. The pallet 4033/4 of the product series "K1" combines a number of advantages in one plastic pallet. The pallet is closed on all sides and thus can be cleaned easily and is very hygienic. Due to the firm grouting of the top deck and the skids as well as the armouring in the top deck, the pallet is very sturdy and can stand applications in extreme ranges. The pallet can be entered from all four sides and due to the closed skid bottom it can be used on roller conveyors without problems.

Load Quantities:

Complete truck (trailer truck: 13.6 ldm): 440 pieces
 Quantity/ Storing position - complete truck: 20 pieces
 Quantity / Pallet spaces in case of general cargo transportation (max. height = 2200 mm): 20 pieces

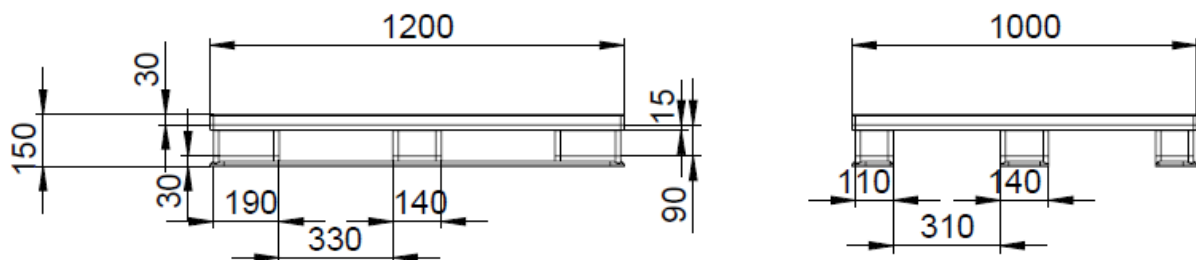

Further options:

- Available with lateral anti slip rim ("4033/4-GR-AM", see to detailed figure)
- Individual marking
- Without minimum purchase also available in black
- Available with anti slip mat grouted in the top and/or base deck (see to Load Securing")
- Lengthening and widening of the pallet to special dimensions (also see: "xs to XXL")

Important Information:

This pallet with pressed mat is not suitable for use in connection with oils or other plasticizers or similar substances!

Entry dimensions*:

*All load capacity data is only valid in case of evenly distributed load. For all indicated dimension tolerances of +/- 3 mm apply.
