

Pallet frame with 6 hinges	
Dimension	800 x 1200 x 200 mm
Material	PP/PE-Recycling-Mix
Colour	black
Temperature stability	-30 °C up to +60 °C
Weight	approx. 5,3 kg
Capacity Loads	Superimposed load: 600 kg (Information is only valid when stacking on lids or stacking corners)

Description /Application:

The KIGAFRAME® convinces with optimal stability and clever handling. Made from 100% recyclable plastic, with no foreign materials, it paves the way for a green future in transportation.

The smooth inner surfaces are easy to clean and ensure that your goods are transported safely and gently.

The optimal form fit enables reliable stacking of several frames on top of each other on nearly any euro-sized pallet.

Further options:

- Individual labeling on side indentations
- Application of labels, protected in recesses on the side
- Other colors on request
- Manufacturing from ESD material

Load Quantities:

Quantity / stack (800x1200 mm) = 61 Stck.
quantity / truck (13,6 Loading mtr.) = 2013 Stck.
