

Pallet frame with 6 hinges	
Dimension	800 x 1200 x 200 mm
Material	ABS-RE
Colour	black
Temperature stability	-30 °C up to +60 °C
Weight	approx. 6 kg
Capacity Loads*	Superimposed load: 600 kg (Information is only valid when stacking on lids or stacking corners)

Description / Application:

Our plastic frames are the hygienic and light alternative to wooden frames. The advantages are the light weight that does not change when stored outside and the easy cleaning of the smooth surfaces. Variable stacking of all frames is possible. Frames with 4 corner hinges are diagonally foldable. The type with 6 hinges (2 additional centre hinges - available from dimension 600 x 800 mm) can be compactly folded to the respective pallet size.

Further options:

- Individual marking
- Reinforcement by inserting iron against lateral pressure
- Other colours available by inquiry
- Made of ESD material

Load Quantities:

Quantity / Storing position 75 pieces
(Frame parts separately, not assembled)
