Description / Application:

Due to the perforated top deck the pallet 2010Q-SR is extremely light and can be moved by hand. Entry from all 4 sides is possible with common hand lifts / fork-lift trucks. The sturdy design and the firmly bonded skids increase the stability, so that the pallet can be used in a racking system. An ideal pallet for light and minor loads in numerous industry sectors.

Further options:

- Individual marking
- Lengthening and widening of the pallet to special dimensions (also see: "xs to XXL")
- Milling off of the lateral anti slip rim
